## SYDNEY UNIVERSITY OPEN DAY

The poster is divided into two main sections. The top section features a vibrant photograph of a large crowd of people, many sitting on colorful inflatable rings, gathered in a courtyard with historic stone buildings in the background. Below this image is a red banner with white text that reads: "Discover your future. Let's make it happen. Join us at Open Day, Saturday 31 August, 2024". To the right of the text is the University of Sydney crest and name. The bottom section of the poster has a background image of the Sydney University clock tower and spires, with red and white pennant flags strung across the scene. Overlaid on this image is a dark grey rectangular box containing white text. The text reads: "The University of Sydney Open Day", "31 August 9 am – 4 pm", and a paragraph inviting students and staff to explore the campus and activities. At the bottom of this box is a red button with the text "Register now".

## JOB OPPORTUNITIES

### New apprentice and trainee positions open - Government Announcement

The NSW Government will create another 440 apprentice and trainee positions across public agencies in the next 12 months.

Image: Minister for Skills, TAFE and Tertiary Education Steve Whan and NSW Health Pathology chief executive Vanessa Janissen speak with staff at Royal North Shore Health Pathology.

The NSW Government is creating another 440 apprentice and trainee positions across 67 government agencies and state owned corporations over the next 12 months, as it continues the roll-out of the three-year, \$93.5 million election commitment to rebuild the skilled workforce across the state, including in over 200 in regional communities.

Coinciding with National Skills Week (19-25 August), the 440 new jobs emphasises the importance of skills development and vocational training in shaping the state's workforce.

The program cements the government as a leader in the employment of apprentices and trainees, and builds skills capacity within the public sector, by employing 1000 apprentices and trainees over three year, learning the skills to work in vital sectors such as Information Technology, Health and Electricity Distribution.

## University - Institutes

### UAC

#### **UAC Key Date Reminders**

Details of all semester 1, 2025 courses offered by UAC's participating institutions are now available, so it's a perfect time to get started on your UAC application if you haven't already. Remember, if you apply by 30 September, you'll avoid a significant increase in the application fee.

Key Dates:

- 16 Sep - Schools Recommendation Scheme applications close (for Year 12 students)
- 30 Sep - Early bird fee deadline – significant increase to application processing charge after this date
- 21 Nov - Educational Access Scheme application and document deadline to have them considered in December Round 2
- 18 Dec - 2024 NSW and ACT ATARs released on this website
- 23 Dec - December Round 2 offers released – first offers made to Year 12 students based on ATARs

<https://www.uac.edu.au/media-centre/news/dreaming-of-uni>

#### **UAC Schools Recommendation Scheme**

Applications Close 16 September

The Schools Recommendation Scheme (SRS) is one way institutions make early offers of undergraduate admission to Year 12 students. They do this by using criteria other than (or in addition to) the ATAR. Each institution has its own policy for determining SRS eligibility and making offers. For example, you may also have to submit an EAS application institution-defined dates, or attend a school in a particular region.

SRS is not available for all courses. The institution-specific SRS criteria detail any exceptions.

<https://www.uac.edu.au/future-applicants/scholarships-and-schemes/schools-recommendation-schemes>

#### **Have a back-up plan: Pathways to Uni**

UAC always recommends that, when you choose your course preferences, you include a 'back-up' course; that is, a course you are confident you'll be offered a place in and will be happy to study if you miss out on offers for your higher preferences. For example, you could include a diploma course in a similar area of study as your preferred degree course. You could then use your diploma studies as a stepping stone to the degree: you may even be able to move straight into second year. Pathways to uni.

#### **ATAR Myths Busted**

HSC students hear a lot of confusing messages about the ATAR, so UAC's ATAR expert, Dr Helen Tam, has busted the top 5 myths.

### **JCU Dentistry Application Advice & Indigenous, Rural & Tropical Health Issues Webinar**

24 August

Are you aspiring to pursue Dentistry or Medicine at James Cook University?

Did you know that James Cook University does not require a UCAT score as part of the application process for medicine or dentistry?

However, a written application and letters of support are part of the competitive selection process for Dentistry. Also, while JCU medicine no longer has a written application and letters of support component, it is vital to be well prepared for your medical interview across all of the assessed areas including understanding and knowledge of Indigenous, Rural & Tropical Health Issues in Medicine. We understand that the application and preparation process can be overwhelming, and that's why we're here to help!

On the 24th of August, we are conducting an informative workshop webinar during which you will gain valuable insights, practical tips, and personalised advice to create a standout application for the Dental Degree program at James Cook University.

### **NSW Police Application Process**

Once you have successfully completed the University Certificate in Workforce Essentials (UCWE) you may be eligible to submit an application to the NSW Police Force. Once received, your police application will be allocated to a Recruitment case officer who will get to work processing your application.

#### **1. Background Checks**

Upon receipt of your police application your recruitment case officer will conduct a number of background checks including detailed background vetting, employment checks and a more thorough investigation of your history.

#### **2. Physical & Medical Assessment**

As a police recruit applicant you will be required to undertake a number of physical tests to determine your ability to perform the physical demands inherent to operational policing. You will also be invited to attend a full medical assessment including a complete medical history. The assessment will be conducted by an external provider and will assess your medical fitness to perform the inherent role and functions of an operational police officer.

#### **3. Interview**

The final stage of the recruitment process is a formal face to face interview. The interview will be conducted by a three (3) member panel and will provide an opportunity for the NSW Police Force to assess you against a number of core qualities. The interviews will be conducted at a number of metropolitan and regional locations.

#### **4. Ranking & the Eligibility Pool**

Successfully completing all requirements of the recruitment process will see you progress onto the eligibility list to await an offer for placement into the Associate Degree in Policing Practice.

## **Marine Discovery Series at SCU: Marine species-on-the-move**

5 September

Marine species-on-the-move: How climate change is affecting the distribution of life in the ocean (and how you can help!)

Half of the planet's species are already shifting where they live to follow their preferred environmental conditions in a changing climate. These 'species-on-the-move' are recognised as one of the most evident biological fingerprints of climate change and have considerable implications for ecosystems and human well-being. Species-on-the-move also provide opportunities to engage the public on climate change impacts in the local environments.

This talk will provide an overview of how climate change is affecting where plants and animals are found in the ocean, with emphasis on Australian and NSW environments. Opportunities for public participation in the detection of marine species-on-the-move through citizen science will also be discussed, and glossy report cards and posters will be available free of charge for all attendees after the talk.
