BACHELOR OF ACCOUNTING CO-OP SCHOLARSHIP (BAcc)

The University of Technology Sydney runs Australia's most successful co-op course – the Bachelor of Accounting. Just look at the list of employers who are actively involved with this program:

Allianz Australia	Foxtel	PwC
American Express	GPT Group	QBE Insurance
ASX	GrainCorp	SMA Australia
Coca-Cola Europacific Partners	Ingham's	Stockland
Commonwealth Bank	KPMG	THE ICONIC
Cuscal	Lendlease	Thinkmill
Dexus Property Group	Macquarie Group	UTS Finance
Ernst & Young	Perpetual	Westpac Group

These employers together contribute almost \$3 million annually to this one course alone. The reason? Demand for graduates of the course, who are seen as something special, is very high and will continue to be so for many years due to critical skills shortages in business. This is despite tough economic conditions.

The UTS Bachelor of Accounting has the aim of producing potential business leaders of the future via an accounting career.

The main benefits to students who are selected into the Bachelor of Accounting are a tax-free scholarship valued up to \$54,000, a year of full-time work training, and great career prospects with the major employers who support the course. No BAcc graduate has ever missed out on a job, and these job offers are generally made by March of the students' third and final year of study. That might be only 3 years away from where you are now.

Other key benefits of this program, that set it apart from cadetships or other co-op courses, are that it takes only 3 years to complete and that students in the course study, work and play together as a close group of friends throughout that time.

What sort of students are we looking for? All-rounders, achievers and leaders in various activities. Plus you'd need to be interested in a career in business. A high ATAR is not essential, but it will help. Each year we take in students with ATARs in the range 85-100, who have the other skills and experiences to make them ideal business graduates.

And why choose to study accounting? Well, consider that accounting is recognized by big business employers as a highly desirable qualification for graduates to hold, and business leaders today increasingly have this sort of background. This is because the role of accountants has changed radically over the last 10 years; they are now the people called on to analyze the factors behind business success and failure, and who can provide the information needed for critical decision-making.

As a Bachelor of Accounting graduate you will have more potential than virtually any other professional - in terms of long-term employment and salary prospects, rewards and job security, opportunities for travel and working overseas, challenges and job satisfaction.

For further details on the Bachelor of Accounting program, please visit [Bachelor of Accounting](#)

JMC Songwriting Competition 2023

Closes 27 August

We invite participants to submit a demo of an original song (that they've written individually or as a team) and the lyrics to the song in written form (i.e. your lyrics written out in a word document).

JMC Academy is proud to announce the 2023 songwriting competition for students across New South Wales, ACT, Victoria and Queensland in years 9-12. The aim of the competition is to highlight the talent of high-school songwriters from across the country and to showcase the creativity of young people.

The demo can simply be recorded on your phone (we just want to hear the song performed!) and only include the vocals however instrumental accompaniment is encouraged. You're welcome to record the demo in other ways too if you have the means.
