

Upcoming Careers Expo Excursion for Year 10

An excursion is planned for Year 10 students on Tuesday 4th April to the Central Coast Careers Expo. The excursion will run from the start of the day (8:45am at the school bus bay) through to about 2pm when we return from the excursion. Students will have the opportunity to view displays, ask questions and gather brochures and information of interest. The Expo will also include a Showcase about vocational careers.

A permission note is in Parent Lounge giving the opportunity for parents to provide their permission for their child to attend the excursion. Students will attend period 4 classes after they return to school on 4th April.

Heading to the Central Coast
Career Pathways Expo?

UAC Presentation to Year 12

At an extended Year Meeting, Year 12 heard from a UAC representative, Wendy Fisher, who explained about the ATAR and applying for University. Students received lots of information and had the opportunity to ask questions at the end of the presentation. Wendy kindly sent a recording of the formal presentation which is available for students to see via the following link [Greenpoint CS UAC Year 12.mp4](#)

Students may like to visit the UAC website [Home - UAC](#) to investigate various items of interest and also the websites of Universities that they are interested in.

Medicine Information...

Nobody understands your apprehension better than Dr Ray, the leading authority on medical entry who has guided over 20,000 students to success in the UCAT.

For 20+ years, the MedEntry co-founder and practising gastroenterologist has been helping anxious students understand and master the UCAT.

His free online workshops are rare, so this is an excellent opportunity to dispel myths, ease your nervousness and start your medical entry journey with confidence.

The UCAT can seem alien to students accustomed to studying for traditional tests. It requires a new set of methods, tools and support.

That's why this insightful 1-hour presentation shouldn't be missed. Dr Ray will help you understand the exam's aim, structure, sections and timelines. He'll also conduct a Q&A session to help you address common concerns.

Dr Ray's Workshop will feature:

- Pathways into medical school
- The structure and content of the UCAT
- How to prepare effectively for UCAT
- How to prepare for medical interviews
- Q&A session

Put aside two hours in your calendar on

Tuesday 14th March at 7:30pm AEDT (Melbourne/Sydney time)

[Join us for Dr Ray's free online UCAT workshop](#)

YES Program - Updated List of Central Coast Courses

See last week's Careers Newsletter for details about the TAFE YES program. Please see Mr Russell to register. Please bring your Unique Student Identifier (USI) with you www.usi.gov.au.

Business and Technology Cadetships

In the **Business Cadetships Program**, there are cadetship opportunities for Year 12 students at three leading financial services companies: **UBS**, **Barrenjoey Capital Partners** and **Macquarie Group**.

Cadets combine paid work at one of these companies with study at the university of their choice in Sydney. A Business Cadetship is a proven way of launching a business career.

In addition, in 2023, **UBS** will offer **Technology Cadetships**. Cadets will be placed in the Chief Digital & Information Office at UBS. A Technology Cadetship is an exceptional springboard for launching a career in financial technology and in business.

For more information, visit the following link

https://drive.google.com/file/d/1ITxNV6xoab1QAo66SQcebvrpdSF9tPOR/view?usp=share_link

It contains a short video and a PowerPoint with voiceover that indicates what is on offer in this year's Cadetship Programs as well as the application process (6.4 minutes in total).

Business Cadetship applications are now open and Technology Cadetship applications open on 24 April.

Launch your career now: apply for a Business Cadetship

We are looking for Year 12 students who are highly-motivated, enjoy working with other people and who would like to experience the world of banking and finance.

You will need to demonstrate:

- consistent academic effort and achievement at school
- transferable skills relevant to banking and finance
- evidence of leadership potential
- team involvement at school and/or in the community
- work experience (paid or unpaid)
- personal motivation

Applications are made online to **Professional Cadetships Australia** using the Business Cadetships website.

Don't miss this opportunity: Apply Now!

Applications open: 6 March 2023
Applications close: 24 May 2023

General News

The following news items are sourced from Job Jump

UAC

Everything you need to know about the ATAR in (just over) 2 minutes

HSC students: don't stress!

Here's a quick and simple ATAR explainer without all the jargon.

The ATAR is a rank, not a mark.

The Australian Tertiary Admission Rank (ATAR) is a number between 0.00 and 99.95 that indicates a student's position relative to all the students in their age group (ie all 16 to 20 year olds in NSW). So, an ATAR of 80.00 means that you are 20 per cent from the top of your age group (not your Year 12 group).

Universities use the ATAR to help them select students for their courses and admission to most tertiary courses is based on your selection rank (your ATAR + any applicable adjustments). Most universities also use other criteria when selecting students (e.g. a personal statement, a questionnaire, a portfolio of work, an audition, an interview or a test).

The average ATAR is usually around 70.00.

https://www.youtube.com/watch?v=_NNx5NVFPQk&t=1s

Steps to Uni for International Students

You are an international student if you are not an Australian citizen, New Zealand citizen or permanent resident of Australia.

Australian tertiary institutions offer a broad range of study options and areas of specialisation, from arts and humanities, business and economics to communications and media studies, creative arts, education, engineering, health and medical sciences, science and technology, and teaching. Qualifications gained in Australia are recognised around the world.

If you apply to study in Australia through UAC, you'll be applying to institutions located in New South Wales (NSW) and the Australian Capital Territory (ACT) or close to these states' borders.

<https://www.uac.edu.au/future-applicants/international-year-12-students>

Welcome to UAC, class of 2023!

If you're in Year 12 and thinking of applying for uni in 2024, UAC applications open on Wednesday 5 April (19 April for international Year 12 students).

Until then, here are a few things you can do to help make your uni application process smoother – before the year gets too hectic.

University of Wollongong Online Year 10 subject selection and information evening

29 March - 6pm

Get information and advice that is specifically for parents/carers and Year 10 students! Selecting subjects to study in Year 11 & 12, for some, can be an overwhelming decision. We want to make sure you feel empowered to make an informed decision.

We will talk about what things to consider when selecting subjects, how to apply for uni, scholarships and give you an insight into what student life at UOW is all about.

Live Q&A will run throughout the session, come along with your questions and we will answer them.

https://uow_srd.swoogo.com/infoevenings2023

University of Wollongong Bachelor of Arts in Western Civilisation Immersive On-Campus Experience

14 April

Registration Closes 27 March

The Bachelor of Arts in Western Civilisation Liberal Arts School is an immersive on-campus experience that will give you an insight into studying the Bachelor of Arts in Western Civilisation and the diverse career opportunities in the Liberal Arts.

Open to high school students in years 11 and 12, the program will include intellectually stimulating workshops lead by academic experts as well as fun social activities.

This one-day workshop explores the themes of isolation, scepticism, and the search for truth and belonging, focusing on Mary Shelley's *Frankenstein* and Shakespeare's *Hamlet*.

Over the day, students will be introduced to modes of inquiry that are both literary and philosophical, and will develop their own interpretive and reasoning skills in small-group discussions facilitated by SOLA staff and senior students.

University of Sydney The Merchant of Venice HSC Symposiums

15 March - 7 June

The Merchant of Venice is a relevant HSC study of justice, mercy, and religious division. Sport for Jove's performance symposium invites students to dissect this play's themes and characters in a curriculum aligned theatre experience, with detailed teacher notes also provided.

Sport for Jove's 2023 HSC Performance Symposium series offers a powerful theatrical experience of major scenes and characters from key HSC texts and plays, coupled with analysis and curriculum-based insights into how they work.

Join Damien Ryan and the Sport for Jove team in exploring the plays' multiple meanings. In these discussions, high school students open up diverse critical readings, unlock language and character, and hear actors discuss the plays' famous ambiguities and challenges. Students will also have the opportunity to ask their own questions.

Each symposium ensures students are 'watching with understanding', so they develop the critical thinking skills required to write about the play under exam conditions.

<https://www.seymourcentre.com/event/hsc-symposiums-2023/>

UTS - Rounds for Applications for Bachelor of Accounting 2024

The closing dates for applications to the 2024 Intake of the Bachelor of Accounting course are as follows:

Round 1 Closing Date - Friday 19 May 2023 by 11.59pm

Joint Medical Program for 2024 entry - Uni of Newcastle and UNE

To apply to the Joint Medical Program in 2024, you must complete the following three steps.

- Register with the University Clinical Aptitude Test (UCAT ANZ) office and attend a UCAT ANZ session at a nominated test site. Fees apply.
- Apply to the joint medical program
- Apply to UAC

Our Joint Medical Program is world-class and entry is competitive. Each year, 170 places are available in the program across both the University of Newcastle and the University of New England; more than 3,500 people apply for those spaces. Your application will go through a rigorous selection process. If your application isn't successful, we encourage you to apply again the following year or to consider one of the many alternative degrees offered by the University of Newcastle or the University of New England.

<https://www.newcastle.edu.au/joint-medical-program/how-to-apply>

University - General

Living and Studying in Sydney in 2024 - Residential Applications Opening Soon

Applications for 2024 will open on in early March. Early application is highly advised.

Most undergraduates reside in the Heritage (Main) Building, built in 1926. Here, female students undertaking their first degrees enjoy a space that is calming and inspiring, lending itself to academic achievement and the forging of lifelong friendships. Residents join us from all over Australia and the world as domestic, international and exchange students. Our tradition of being a home away from home for women from regional Australia remains strong today.

TAFE

Q&A School Based Apprenticeships and Traineeships

School based apprenticeships and traineeships allow senior high school students to commence an apprenticeship or complete a traineeship while at school. School based apprentices work part-time and undertake the first stage of their apprenticeship training before the end of the HSC year. School based trainees work part-time and complete their traineeship by the end of their HSC year.

<https://sbatinnsw.info/getting-started/questions-answered>

TAFE Guide for Parents

We understand that parental involvement is important to help guide your child choose a career path that is suited to them.

That's why at TAFE NSW, we provide our students with individual support, small class sizes, quality trained teachers, and pathways to get them to where they want to be.

From specialist schools such as the Design Centre Enmore, Fashion Design Studio, and the Australian Patisserie Academy, TAFE NSW has hundreds of courses, diplomas, and degrees, with many different pathways to suit every style of learning - be it online, in person, a combination of both, or even in their own time.

With strong industry connections we also partner with employers to provide mentorships, internships and work placements in a real world learning environment.

Our ambition is to help your child with their career goals.

JMC Screenwriting Two Day Workshop

21 - 22 April

Have a great idea or maybe too many ideas, and not sure how to turn it into a screenplay?

This two day workshop will cover:

- The fundamentals of story
- Conceptualisation
- Screenplay format
- The language of writing for the screen

You will be provided with a dramatic set up, where you will write a scene, do round table reads and receive feedback.

At the end of the workshop, you'll have the confidence and tools to start writing in an effective way!

Open to high-school students in years 9 - 12, this two (2) day workshop is designed to give the student an active taste of writing a screenplay.

NIDA Holiday Course - Hitting Your Mark: Screen Acting, Grades 11-12

17 - 21 April

Whether you're in Home & Away or The Avengers, one of the most important skills is being able to 'hit your mark'. It can also be the hardest to master. Develop the technical ability to be on target, scene after scene, with this intensive screen workshop. Explore working with scripts from television and film, acting in high stakes situations while maintaining the ability to master positions and props with precision.

<https://www.open.nida.edu.au/course/OHHYM1112>

NIDA Holiday Course - NIDA Drama School, Grades 7-10

17 - 21 April

A comprehensive course for committed young people. Develop performance skills including improvisation, voice and movement, devising, acting and rehearsing scenes.

<https://www.open.nida.edu.au/course/OHND710>

NIDA Holiday Course - Auditions and Screen Tests, Grades 11-12

11 - 13 April

Become confident in how to present yourself to a theatre or screen director, practice auditions for theatre, film and TV. Participate in a 'mock audition', receive constructive feedback on your audition preparation and technique.

<https://www.open.nida.edu.au/course/OHAST1112>

NIDA Holiday Course -Screen Acting Boot Camp, Grades 11-12

11 - 13 April or 15 - 16 April

Identify and experience the essentials of screen acting. Build your on screen confidence as you develop skills in improvisation, character development and script work.

<https://www.open.nida.edu.au/course/OHSB1112>

NIDA Holiday Course - Introduction to Acting, Grades 7-10

14 April

Want to explore performance and acting but not sure where to start? Take your first step into the spotlight with this fun and practical, one day introduction to acting. Experiment with improvisation, acting and character development, then road-test your new skills on a short contemporary script. Receive practical advice from your NIDA tutor on how to further your creative development.

<https://www.open.nida.edu.au/course/OHIA710>

General

Benefits of Internships

Internships are both a valuable add-on alongside an academic degree and a great way to explore and develop skills in a new industry. Also known as placements, internships are often a good way to add get relevant experience onto a resume when branching out into a new sector.

Benefits of internships:

- Opening networking opportunities
- Getting a foot in the door into a new industry
- The perfect way to meet like-minded people.

It is advisable for interns to meet a range of people outside the department or company, as they might find themselves being asked to stay on for work in other areas of the business.

Sydney Observatory Late: Earth Hour

25 March

As the City of Sydney powers down and dims its lights for Earth Hour 2023, take advantage of the reduced light pollution and celebrate the night sky.

This is a free evening, suitable for all ages, held on the lawns of Sydney Observatory. Featuring telescope viewings, talks from astronomers and First Nations Knowledge Holders, and new music inspired by the stars.

<https://www.maas.museum/event/sydney-observatory-late-earth-hour/>

Young Entrepreneur Summit

14 June

Hurstville Entertainment Centre

Run by young people, for young people, YES (Young Entrepreneur Summit) is Australia's Highest Rated Entrepreneurship & Leadership Day. It's a one-day, interactive summit designed to inspire and empower a generation of brave, creative and entrepreneurial young leaders.

YES is a super high energy, action-packed event for Primary School, Secondary School and University students that features keynote presentations, panel discussions and interactive group workshops on a whole range of 'adulting skills' such as leadership, public speaking, financial literacy, ideation, collaboration and team work.

<https://www.ase.edu.au/yes>

Science and Engineering Challenge

Dates from 28 March

The Science and Engineering Challenge is a national program, running Challenge Days (for high school students) and Discovery Days (for primary school students) across every state and territory in Australia.

Follow the link below to find an event in your area.

<https://www.newcastle.edu.au/college/engineering-science-environment/education/science-and-engineering-challenge/events>

Young ICT Explorers

Registration Now Open

Young ICT Explorers (YICTE) is a non-profit competition, created by SAP, supported by CSIRO Digital Careers and The Smith Family with the help of Industry and University partners across Australia, to encourage primary and high school students in years 3-12 in Australia to solve real-world problems or showcase their passions using technology. That could be anything from creating better ways to recycle, to supporting people with disability; from creating virtual reality worlds, to building entire operating systems and robots from the future –students can use their imagination and their interest in the world around them to create projects, we want students excited about working with technology. The work we do directly with our partner, The Smith Family (TSF), is on a dedicated funding program, which enables disadvantaged youth to have equal access to participate and engage in the competition through our YICTE Accelerator program.

Engineers Australia for Secondary Students

Engineers Australia knows that many of the most successful engineers weren't merely forged while studying – they began their engineering journey while young, eager and full of possibility. Engineers Australia has partnered with Australia's Chief Scientist to develop the STARportal.edu.au, Australia's first centralised national portal for exciting and engaging STEM activities from around the country.

Perhaps your interest and aptitude in science and maths has guided you to engineering. Maybe you love designing and building, or have ideas that will make the world a better place. You might even be driven to engineering by a cause you believe in, such as feeding the hungry or cleaning the world's oceans.

No matter how you arrived at engineering, know this: as an engineer you will face rewarding challenges, work with brilliant minds, put your skills and talents to great use and shape a future where our tools, vehicles, structures and cities are more functional, efficient and accessible.

<https://www.engineersaustralia.org.au/For-Students-And-Educators/For-Secondary-Students>

Women in cyber security

Are you a woman thinking about getting into cyber security? There are loads of opportunities for young graduates looking to future-proof their pathways

Fighting Fires with Data

Keen to use your maths skills to improve our understanding of bushfires? Country Fire Authority (CFA) researcher Rachel Bessell crunches numbers to predict where and when bushfires will impact.

<https://careerswithstem.com.au/profiles/senior-researcher-cfa>

The Pros and Cons about an Accountancy Career

The world is full of accountancy grads who aren't working as accountants. Some are musicians (Mick Jagger), some comedians (Eddie Izzard) and some novelists (John Grisham). Believe it or not, some are even mixed martial arts cage fighters (Chuck 'The Iceman' Liddell). Of course, most accountancy grads do go on to become accountants, at least for a period of time. But before you do so it's worth doing a little accounting of your own about the benefits and costs involved.

<https://youunlimitedanz-guide.com/career-planning/the-pros-and-cons-of-a-career-in-accountancy>

About Women in STEM

The virtual experience is designed to excite young women considering STEM careers through inspirational female mentors. Students will explore each mentor's journey, build a STEM resume, and participate in an interactive experience that explores multiple issues that each mentor experiences in the workplace.

Program 3 within the Day of STEM platform explores the careers of women STEM leaders who are at the forefront of the industry. The program explores six dynamic female role models and their individual career journeys with companies on the cutting-edge of technological innovation in Australia.

Teachers may run the program in the classroom or as a homework exercise for students.

Imagine a career in the Sign & Graphic Industry

The graphic design and sign manufacturing industry, also includes the router, engraving, laser and fabrication industries, and is without a doubt one of the largest manufacturing sectors in Australia. Signage is everywhere you look and we could not exist without it. To use a quote commonly used by one of our esteemed Sign Manufacturers, "A Business without a Sign is a sign of no Business". Here are just a few ideas of what the Signage and Graphic Industries produce. Business signs, LED signs, neon signs, vehicle print design and wrapping, fabricated letters, company and government coats of arms, window graphics, stage settings, flags, banners, advertising billboards, road signs, directory signs, safety signs, logos, stickers, labels, company seals, rubber stamps, trophies, promotional products, jewellery, label making, stainless steel plates, the coins we use every day and thousands more which are too many to mention.

Australian Federal Police Recruitment Requirements

To successfully become an AFP officer, you must be trustworthy, respectful, accountable, fair and committed to using intelligent action to outsmart serious crime.

To ensure we are able to stay a step ahead, we're looking for people who are committed to our principles of prevention, deterrence, collaboration and innovation.

To be a police officer or protective service officer in the AFP, you must:

- Be 18 years of age or over
- Be an Australian citizen
- Hold a valid full, provisional or automatic-only driver's licence
- Have at least a Year 10 certificate with a Cert IV/Diploma level qualification or Trade Certificate. University-level qualifications are welcomed
- Complete and submit the AFP Employment Suitability Questionnaire

- Provide your traffic history
- Undergo security vetting
- Undergo drug and alcohol testing
- Meet character standards – if you have a history of breaking the law (even as a juvenile) or associating with people who are well-known to law enforcement, you may not be able to work for the AFP.

Visit the Application and Recruitment Process page for more detailed requirement information.

<https://jobs.afp.gov.au/become-an-officer/eligibility>

Forensics Work Experience Years 10, 11 and 12 with the Australian Federal Police

Applications Now Open

The AFP Forensic Training Team are planning to host a work experience program targeted at students enrolled in years 10, 11 and 12.

The program is designed to give high school students an understanding of what a career in forensics involves, and the opportunity to engage with AFP members working in contemporary forensic roles. We will be looking for candidates who are keen to pursue a career in a science-related field and who have a demonstrated interest in Science, Technology, Engineering and Mathematics (STEM).

<https://jobs.afp.gov.au/work-with-us/afp-forensics-work-experience>
