

Australian Jobs Report 2022

Article courtesy of *My Career Match*, March 2023

Australian Jobs report 2022 now available.

Australian Jobs 2022 provides an easy-to-read overview of trends to support job seekers and employment service providers, career advisers, those considering future training and people interested in labour market issues.

For school Career Advisers we have edited the report to make it more engaging for students.

[Aust Jobs 2022 Student Version](#)

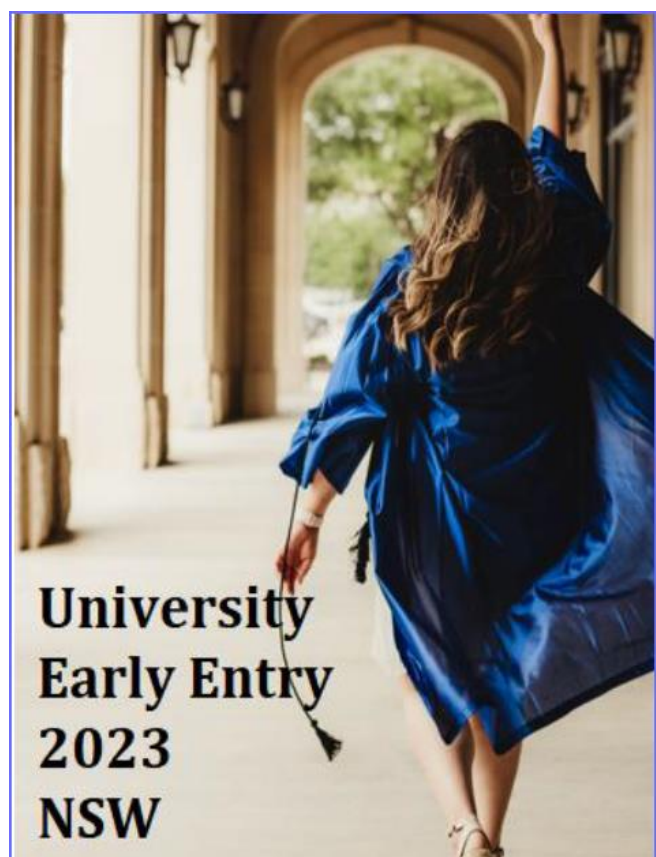

Job Jump – Summary of University Early Entry Programs

Job Jump has produced a summary listing of current information about early entry programs for Universities in NSW.

Early entry does not mean that you start University early... it means that you can receive and offer for a University course before the general offers come out.

Universities have various programs of their own to provide early offers to applicants for University places.

The summary is attached to this edition of the Careers Newsletter.

UTS BACHELOR OF ACCOUNTING CO-OP SCHOLARSHIP (BAcc)

Annabelle Swan, former student at GPCC, who spoke at the Year 12 Year Meeting presentation on 21 March 2023 offered her assistance for any students who want to apply for the BAcc program. Her email address is Annabelle.Swan@student.uts.edu.au. Annabelle's PowerPoint presentation is attached to the Careers Newsletter email.

The University of Technology Sydney runs Australia's most successful co-op course – the Bachelor of Accounting. Just look at the list of employers who are actively involved with this program:

Allianz Australia	GPT Group	Perpetual
ASX	GrainCorp	Pitcher Partners
Coca-Cola Europacific Partners	Ingham's	PwC
Challenger	KPMG	QBE Insurance
Commonwealth Bank	Lendlease	Stockland
Cuscal	Macquarie Group	THE ICONIC
Dexus Property Group	MA Financial	Thinkmill
Ernst & Young	Mirvac	Westpac Group
Foxtel	News Corp	

These employers together contribute almost \$3 million annually to this one course alone. The reason? Demand for graduates of the course, who are seen as something special, is very high and will continue to be so for many years due to critical skills shortages in business. This is despite tough economic conditions.

The UTS Bachelor of Accounting has the aim of producing potential business leaders of the future via an accounting career.

The main benefits to students who are selected into the Bachelor of Accounting are a tax-free scholarship valued up to \$54,000, a year of full-time work training, and great career prospects with the major employers who support the

course. No BAcc graduate has ever missed out on a job, and these job offers are generally made by March of the students' third and final year of study. That might be only 3 years away from where you are now.

Other key benefits of this program, that set it apart from cadetships or other co-op courses, are that it takes only 3 years to complete and that students in the course study, work and play together as a close group of friends throughout that time.

What sort of students are we looking for? All-rounders, achievers and leaders in various activities. Plus you'd need to be interested in a career in business. A high ATAR is not essential, but it will help. Each year we take in students with ATARs in the range 85-100, who have the other skills and experiences to make them ideal business graduates.

And why choose to study accounting? Well, consider that accounting is recognised by big business employers as a highly desirable qualification for graduates to hold, and business leaders today increasingly have this sort of background. This is because the role of accountants has changed radically over the last 10 years; they are now the people called on to analyse the factors behind business success and failure, and who can provide the information needed for critical decision-making.

As a Bachelor of Accounting graduate you will have more potential than virtually any other professional - in terms of long-term employment and salary prospects, rewards and job security, opportunities for travel and working overseas, challenges and job satisfaction.

For further details on the Bachelor of Accounting program, please visit [UTS Bachelor of Accounting](https://www.uts.edu.au/bachelor-of-accounting)

Email enquiries: carin.alberts@uts.edu.au

Round 1 applications are open. Applications close on Friday 19 May 2023.

Resource to help prepare for UCAT (Medicine, Dentistry entry)

Get exam ready with our

8 Week UCAT Challenge

Join the challenge starting 27 March 2023 and you could win UCAT Masterclass free!

Join the 8 Week Challenge and receive:

-  Guided weekly tasks to keep you on track
-  Full access to the **UCAT Masterclass Premium** (easy-to-follow theory, 7 exams, and 2700+ quiz questions)

University - Institutes

University of Wollongong University of Wollongong Bachelor of Arts in Western Civilisation Immersive On-Campus Experience - Registration Closes Soon

14 April

Registration Closes 27 March

The Bachelor of Arts in Western Civilisation Liberal Arts School is an immersive on-campus experience that will give you an insight into studying the Bachelor of Arts in Western Civilisation and the diverse career opportunities in the Liberal Arts.

Open to high school students in years 11 and 12, the program will include intellectually stimulating workshops lead by academic experts as well as fun social activities.

This one-day workshop explores the themes of isolation, scepticism, and the search for truth and belonging, focusing on Mary Shelley's *Frankenstein* and Shakespeare's *Hamlet*.

Over the day, students will be introduced to modes of inquiry that are both literary and philosophical, and will develop their own interpretive and reasoning skills in small-group discussions facilitated by SOLA staff and senior students.

Reminder: University of Sydney - Chinese Studies - Webinar

This webinar is for students considering Chinese Studies at university, from beginners to native speakers and everyone in between. Meet our Chinese Studies lecturers plus past and present students, and hear about how Chinese Studies can open doors for you. We'll cover FAQs such as "Why study a foreign language?" and "Why is Sydney the best choice for language study?". By the end, you'll understand the wide variety of options we offer, the main differences between high school and university study, and the kinds of careers available to students of Chinese. You'll also hear about cross-institutional study options with overseas universities, and our friendly lecturers and students will answer any questions you have.

Webinar is in English.

*Our graduates are ranked 1st in Australia and 4th globally for employability by the 2022 QS Graduate Employability Rankings.

Sydney Science Forum: Dr Karl's Great Moments in Science - Rolling Thunder

What's the Bulldust Asymmetry Factor? Why is the divorce rate in Maine so closely related to the daily US consumption of margarine? How do you cheaply make wood three times harder than steel and as transparent as glass? What happens to the rubber that wears off your tyres? How much weight do you lose when you 'fart'? Why does Sky TV not know the difference between windmills and wind turbines? How can you tell a James Webb Space Telescope pic from a Hubble pic? Why did all the Gods of Metal Work have a limp? What changes did social media bring to our society? Just what is noise, and how is it related to Black Box Thinking? Plus a Q&A following the presentation. Don't miss an evening with the one and only Dr Karl!

Open Academys Rising Stars at the Con

Come and watch the talented young students of the Open Academy's Rising Stars at the Con program, supported and accompanied by professional associate artists, in our free Saturday concert series.

If you'd like to help inspire a child who is learning music, get an idea of what the program is like, or simply see our Stars in action, this is a great opportunity to do so! The concerts are free and run for about an hour in our state-of-the-art venues at the Conservatorium on Saturdays during school term.

The Open Academy's Rising Stars at the Con is a dynamic performance-based music education program for school-aged students. Supported by the Conservatorium faculty, Rising Stars is a vibrant program where we strive to identify talent at an early age to establish a constructive foundation for a lifetime of musical achievement. Individual

instrumental lessons, group music Skills classes, and regular performance opportunities are the basis of the Rising Stars program and these components facilitate our students to become well-educated and confident musicians. The concert program for the week is uploaded to the Open Academy's website on Friday afternoon.

Upcoming dates:

4, 11, 18, 25 Mar

1, 29 April

6, 13, 20, 27 May

Reminder: Charles Sturt University 2023 Medicine Information Night

Interested in a career in medicine? Come to our online medicine information night

Wednesday 29 March 2023, 6-7.30pm

Come to our online medicine information night and discover everything you need to know about our five-year undergraduate entry degree – the Doctor of Medicine.

Based at our Orange campus in regional NSW for two years followed by three years of rural and regional placements, the Joint Program in Medicine is offered by Charles Sturt in partnership with Western Sydney University.

Whether you're in high school, looking for a career change or keen to take the next step in your health career – this information night is for you! Parents, carers and career advisers are also welcome.

We'll start with an overview of the course and our facilities, entry requirements, key dates and how to apply. We'll tell you about clinical placements, career opportunities, support services, scholarships and more. You'll learn all about the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) and hear about the experiences of rural and regional doctors.

Get to know our School of Rural Medicine team, have all your questions answered and hear from our current students about their experiences studying medicine.

<https://cvent.csu.edu.au/event/580ba471-d7bc-4095-aa56-1269fe26a324/summary>

Charles Sturt Scholarships

You want the best education, but it's got to be affordable. We get that. With Charles Sturt you can tap into more than \$3 million in scholarships and grants. We make studying that bit easier for students just like you. Extra cash in your pocket means you won't have to stress about course fees, textbooks and attending work placements.

<https://study.csu.edu.au/get-support/scholarships>

University of Newcastle Ask a Student

Find out about student life, studying with us, living on campus or any other questions you may have about going to Uni. Or check out the FAQs that our students have answered. You can also chat directly to our academics about our courses, areas of study, or campus options.

<https://www.newcastle.edu.au/study/ask-a-student>

Notre Dame Doctor of Medicine Information Session

4 May

You'll hear from School of Medicine academics, including National Head of School Professor Gervase Chaney, along with staff from both the Admissions and the Prospective Students Offices.

We'll provide you with important information around how to apply, course structure and professional experience, and also give you an opportunity to ask questions during the Q&A.

<https://events.nd.edu.au/doctor-of-medicine>

La Trobe Aspire Early Entry Program

At La Trobe, there's more than one way into uni. The Aspire Early Entry Program is a way to access an adjusted Aspire ATAR for your preferred course and secure an early conditional offer. For some Aspire programs, you can also gain a La Trobe Entrance Score as an alternative to your ATAR.

We have multiple streams to choose from, so if you've given back to your community, achieved good results in Year 11 or taken extra university studies, giving you the reassurance that you have a place in your preferred course before you complete Year 12.

<https://www.latrobe.edu.au/study/aspire>

La Trobe Year 11 Conditional Entry

Applications Now Open

The Aspire Year 11 Conditional Entry program uses your performance in Year 11 to secure you an early conditional offer into a range of courses at La Trobe.

Once you have secured your place at La Trobe you can take advantage of our other Aspire pathways to unlock access to more than 100 courses at La Trobe. It's the perfect way to take the stress out of Year 12.

<https://www.latrobe.edu.au/study/aspire/year-11-conditional-entry>

University - General

Applying and studying in the UK

What it's like to study in the UK as an international student, and how to apply to a UK university.

The UK is one of the world's most popular destinations for international students. As of academic year 2020/1, more than 600,000 international students had enrolled to study in the UK. Of these, more than 150,000 are from the EU.

You have a choice of more than 140 universities and other higher education institutions. Each offers a range of qualifications recognised around the world.

Tuition fees vary between institutions. Since Brexit, most EU and EEA nationals are no longer eligible for home fee status unless they're from Ireland or are already living in the UK and registered under the EU Settlement Scheme.

You'll need to be aware of visa conditions, English language requirements, and work permit restrictions. Find out more on the UK Government website.

Use this guide as well as other information and advice found across our website. Our UK university rankings are a good place to start.

<https://www.thecompleteuniversityguide.co.uk/student-advice/where-to-study/studying-in-the-uk>

Accelerate your SAT / ACT

While the US application process is a holistic one with admissions officers taking into account the various aspects of your Common Application, your SAT and/or ACT and SAT Subject Test results often act as deciding factors as to whether or not your application is given a thorough read by an admissions officer.

- the software, skills and knowledge we teach.

https://aie.edu.au/aie_event/online-campus-day/

Reminder: SAE Create For A Day

15 April

SAE Institute is opening its doors this April for a one-day program, designed to expand your skills and get you working on inspiring creative projects in the fields of Animation, Audio, Design, Film, Games, Music Production, or Songwriting.

Don't miss out on your chance to experience life as an SAE student and discover what it means to be a creative professional, in state-of-the-art facilities with industry experts by your side.

During the workshop, attendees will learn valuable practical and collaborative skills to build a creative piece of work! They will also receive a certificate of participation to acknowledge the creative project they have undertaken.

Due to the level of workshop content, this event is open to school students aged 15 years and above (Year 10 and over).

<https://sae.edu.au/event/create-for-a-day-at-sae/>

National Art School - HSC Intensive Studio

Module 1: Tuesday 11 – Friday 14 July 2023 and

Module 2: Monday 25 – Friday 29 September 2023

The NAS HSC Intensive Studio Practice is endorsed by the NSW Education Standards Authority and has been offered by NAS to Year 11 Visual Arts students in all government and non-government high schools since 2000.

This course is designed for students from both government and non-government seeking to further their studies in Visual Arts in Year 12 and beyond to tertiary level and who are considering a career in the Visual Arts.

Applicants must be nominated by their Visual Arts teacher and must be those who are achieving at the highest level of excellence in their Preliminary Course and who demonstrate a mature attitude to their studies.

NSW Police Recruitment Information & PCT Practice

29 April

If you are interested in joining the NSW Police Force the Recruitment Branch would like to invite you to an Information & Practice session

If you are interested in a career with the NSW Police Force the Recruitment Branch would like to invite you to an Information session including a physical practice session.

The aim of the session is to provide you with a "try before you buy" insight into the application process and physical capacity testing day.

The information session will give you a brief introduction to the application process and a Q & A session.

Following the information session you will be invited to stay and take part in a practice Physical Capacity Testing (PCT) session. This event is a practice session only and will not be recorded as an official result towards a police application.

You will be provided with important information and an opportunity to gain hands on practice for each of the tests. Qualified NSW Police PTI's will be on hand to answer your test and fitness questions.

There is no obligation to stay for the physical practice session, however this would be a good opportunity to test yourself in an informal environment.

Participants will be required to bring photo identification and bring a completed pre exercise questionnaire with you. The pre exercise questionnaire can be found on the police recruitment website. Just head to the 'Fitness Tests' page and look for the pre-exercise questionnaire link.

Please be at the venue by 8.45am to allow for registration. The session will commence at 9.00am sharp.

Please ensure you wear appropriate fitness attire and appropriate footwear and bring your own food, water and towel as required.

Professional Business Cadetships Australia Companies

Closes 24 May

Over the last sixteen years, Professional Cadetships Australia has provided Year 12 students with the opportunity to apply for a cadetship with leading companies in the financial services industry, including UBS, Barrenjoey Capital Partners, Macquarie Group, Bank of America Merrill Lynch, BNP Paribas, Westpac, QBE and Zurich. In 2023, the Business Cadetships Program offers exciting cadetship opportunities in a range of business areas at UBS, Barrenjoey Capital Partners and Macquarie Group.

As a Business Cadet, you combine university study in Sydney with paid work in Sydney at UBS, at Barrenjoey Capital Partners, or at Macquarie Group. The Business Cadetships Program allows you to choose the university where you will study and allows you latitude in your choice of degree program. Watch this space for information about the Business Cadetships in Melbourne Program.

A Day in the Life of a Dentist

Obviously dentists perform oral health examinations which involve a "scale and clean." However, there is a lot more to it than that. Melbourne dentist Viet Nguyen has shared his views on "a day in the life of a dentist." Dr William Ha shares insights on what a dentist does during a routine consultation:

<https://www.myhealthcareer.com.au/dentistry/a-day-in-the-life-of-a-dentist-by-viet-nguyen/>

Your Guide to a Career in Dentistry

Every day at least 3 Australians will be diagnosed with oral cancer, and dentists play an important role in making these diagnoses.

Drug use can also impact oral health, and dentists may need to treat the effects of conditions such as "meth mouth."

Dentists also have a significant responsibility to their patients in protecting them from blood borne diseases.

Patients are at risk of diseases such as HIV and Hepatitis if dentists do not follow strict infection control protocols.

By the age of 6, over half of all Australian children suffer from tooth decay.

Dentists can do custom fittings of mouth guards for people who play contact sports.

The Dental Board of Australia lists 13 areas of specialization for dentists, including oral pathology, orthodontics and paediatric dentistry. This article from the Australian Society of Orthodontists outlines the specialist area of orthodontics.

What will the workforce of the future look like?

It is no secret that the job paths and skills of young Australians are about to experience significant change, moving away from routine, manual tasks into a world of automation and critical innovation. This great shift in the working order has seen a change in priorities both at work and in career trajectories, with an increasing number of young people being left behind as the working world moves forward.

We will be increasingly focused on some tasks, while others are projected to occupy less of our time. It is also estimated that there will be greater opportunities for career variance, with workers becoming less likely to progress up the ranks in one job. So, what is in store for the workforce of the future?

Practice Tests for Cabin Crew Entrance Used by International Airlines

Are you fully prepared for the cabin crew recruitment process? At most airline's, long gone are the days where you could simply turn up at an Open Day and hope the recruiter liked the look of you. Nowadays, you have to submit a detailed online application including a bespoke resume or CV to stand a chance.

Luckily, we've sat through many of these online cabin crew exams and know exactly what international airlines are testing candidates on. With that knowledge, we've created a series of bespoke practice tests to help you prepare for the cabin crew application tests. And the best bit? – they're completely free!

Five tips for study success

Students are often worried about adjusting to university, and many are afraid that they will not achieve their academic goals while settling into life in a different country. If you share these concerns, read through our five tips before you begin classes.

<https://www.studiesinaustralia.com/Blog/study-tips/five-tips-for-study-success>

Commonly Asked Interview Questions

What are some of the most commonly asked job interview questions and how should you answer them? Here's what the experts have to say. Job interviews often follow a common pattern. Many of the same questions come up again and again. If you know what those questions are, you can prepare for an interview by coming up with ways to answer them. You could also practise your answers before an interview.
