

UAC News

All courses available soon

All 2024 courses from UAC's participating institutions will be available on UAC's website in early August.

For students who have already applied, this is a good time for them to log in to their application and review and update their preferences.

For students who haven't yet applied, the early bird period ends on **Friday 29 September**, at which time the processing fee increases. Even if they're not sure what course they want to study, they should apply before then and put in any course as a placeholder until they are ready to decide.

UAC PIN reminder

In early August, an email will be sent to Year 12 students who haven't applied to remind them of their UAC PIN. PINs will be emailed to the address they have registered with NESA, so they need to ensure that this is a current email address.

To start their UAC application, students will need their NESA Year 12 student number or ACT BSSS number and their UAC PIN. Once they have applied, they use their UAC application number and UAC PIN to log in and manage their application.

If students don't have their UAC PIN email, or are having problems with their PIN, they can [read the PIN FAQs](#) or [contact UAC](#).

How to apply through UAC

Early offers to Year 12 students

While the ATAR is still the main selection tool used by most unis, there are other ways for students to show that they're ready to succeed at tertiary study. This means they may be able to receive an offer to university before ATARs are released.

Early offers through UAC

The first UAC offers to Year 12 students will be made to [Schools Recommendation Scheme \(SRS\)](#) applicants on 10 November 2023. Offers made then are not based on HSC results and ATARs. Instead, they are based on criteria like Year 11 results and the school's rating of the student. In some cases, they will be conditional offers, which means that the student still has to meet other criteria, such as achieving a

specified minimum ATAR. To be eligible, you must be in Year 12 and have already applied through UAC for undergraduate admission in 2024. Applications for SRS close on Monday 18 September.

Early offers from institutions

In addition to submitting an SRS application, Year 12 students can apply directly to individual institutions for an early offer. Each institution has different application and offer dates. Our website has a list of institutions that have their own [early offer schemes](#).

Everything Year 12s need to know about early offers.

Access and scholarship programs

Applications for the Schools Recommendation Scheme, Educational Access Scheme and Equity Scholarships are all open and [application guides are available to download](#).

Educational Access Scheme (EAS)

Institutions acknowledge that difficult circumstances may prevent students from reaching their true academic potential. UAC's [Educational Access Scheme \(EAS\)](#) can help.

You don't have to be a school leaver to apply for EAS; many institutions give consideration to EAS applicants who have already undertaken tertiary study.

If you've already applied for EAS, don't forget to upload your supporting documentation. You can check what documents you need to supply by [logging in to your application](#).

Equity Scholarships

[Equity Scholarships \(ES\)](#) help financially disadvantaged students with the costs associated with tertiary study. You can apply for an Equity Scholarship if you're applying to, or already enrolled at, a participating institution.

For more information about access and scholarship programs click [here](#)

If you have students who may be eligible for these schemes, encourage them to start their applications as soon as they've submitted their UAC undergraduate application.

UAC schemes to help students get to uni

Open days 2023

Many institution open days are scheduled for August and September. They offer on-campus tours and events, online information sessions and virtual tours; many offer a combination of both.

UAC has gathered the latest information about institution open days in one place to help students easily plan for the events they'd like to participate in.

Uni open days 2023

UAC welcomes new institutions

UAC is pleased to welcome several new institutions to its centralised undergraduate admissions for 2024:

- Academy of Interactive Technology
- Asia Pacific International College
- Avondale University
- Excelsia College.

Applicants will now be able to preference courses at these institutions in their UAC application.

UAC Digital

UAC Digital offers a series of webinars on topics relevant to students, careers advisers, parents, and anyone navigating their path to higher education.

The next scheduled event is [Let's Chat – Applying to the Schools Recommendation Scheme](#) on Wednesday 6 September.

The Army Reserve is a great option for students who are looking for a part-time employment opportunity that fits around their lifestyle. Giving back to the community, developing long-lasting friendships and earning tax-free pay is just the beginning.

To see first-hand what it involves, your students are invited to A Night in the Army Reserve.

They'll gain exposure to a restricted-access base, learn about Army Reserve opportunities in their local area and chat to current Reservists to hear about their experiences. Your students will learn about the opportunities for development and unique rewards that come with a role in the Army Reserve. They'll be able to ask questions and discover how a part-time role can fit around their lifestyle.

They can explore military assets on display, including:

- Equipment
- Military Vehicles
- Static Weapon Displays

A Night in the Army Reserve - Erina

When: 7:30pm, 8th of August

Where: Erina Army Reserve Depot, 125 The Entrance Rd, Erina NSW 2250

Early Entry is available for all our bachelor's degrees. Entry requirements vary per course - please visit our website to [find out more about Early Entry](#).

Our annual [Open Day in Sydney](#) will take place on Saturday 26 August, giving future students, parents, teachers and the community an exciting behind-the-scenes look at AIM courses and initiatives. Join us in The Rocks as our state-of-the-art campus comes alive with course area masterclasses, hands-on sessions with award-winning music professionals, facility tours and standout performances by our talented students and alumni.

And for those keen to learn about career paths in the music industry, global trends and areas of high demand, we're hosting a [Music Careers webinar on 26 July](#). We'll be joined by a panel of music industry professionals and independent artists as they share their experiences and top tips

AVCAT Scholarships

Applications for AVCAT scholarships open soon.

[AVCAT scholarships](#), including the [Long Tan Bursary](#), are tertiary scholarships for the children and grandchildren of Australian ex-serving veterans. Scholarships are \$4000–\$6000 per year, for up to three years.

Applications open on 18 August 2023, Vietnam Veterans' Day, and close at midnight AEDT on 31 October 2023.

Apply online at avcat.org.au

Applicants must be:

- Enrolled or planning to enrol in a full-time course for one or more academic year's duration at a university, TAFE, or RTO in 2024
- The child, stepchild, foster child, or grandchild of an Australian ex-serving veteran
- An Australian citizen or permanent resident
- In receipt of, or eligible to receive, a means-tested Commonwealth educational payment – Youth Allowance, ABSTUDY, Austudy or Veterans' Children Education Scheme (VCES) in 2024

The Long Tan Bursary is sponsored by the Australian Government Department of Veterans' Affairs. View the complete list of AVCAT Scholarship sponsors [here](#).

ATO School Leaver Program

Australian Government
Australian Taxation Office

Why join the ATO School Leaver Program?

Applications close 30 August

Have you recently completed year 12 in 2022 or will complete it in 2023? If you're looking to join the workforce and make big things happen, the ATO School Leaver Program is for you!

The ATO School Leaver Program is the opportunity to get your foot in the door and gain valuable skills. Through the 12-month career development program you'll get work experience, formal training and develop your professional skills to enhance your career prospects. You'll also receive a competitive salary.

Successful applicants will be placed in a range of full-time APS 1 roles, including administration, data and analytics, client engagement and information technology, with opportunity for advancement to APS 2 roles, at the end of the program.

Jobs are available in our Adelaide, Albury, Brisbane, Canberra, Gosford, Geelong, Newcastle, Melbourne, Moonee Ponds, Parramatta, Penrith, Perth, Sydney, Townsville, Traralgon and Upper Mount Gravatt offices.

Here's what our participants have to say about the program:

"I never thought I would have the chance to gain such valuable work experience so soon after finishing school. Thanks to the ATO School Leaver Program, I can't wait to see what the future holds, as I continue to grow and develop in my new role." – **Lillian**

"The program has given me the opportunity to learn new and interesting skills, whilst working with a very diverse and inclusive environment. I have worked with a large and professional group of colleagues who have assisted me every step of the way. This has helped me develop my knowledge and understanding of the ATO and has provided me with a strong foundation for my future career." – **Caleb**

Make big things happen

Launch your career by gaining work experience and formal training with one of the country's largest government organisations and make big things happen.

Applications close **30 August 2023**, so apply today at ato.gov.au/schoolleaver.

Central Coast Council Apprenticeship and Traineeships

Build your career with Council

We offer nationally recognised apprenticeships and traineeships in a variety of study areas including electrical, mechanical, carpentry and painting, childcare, horticulture, civil construction, warehousing, water treatment, surveying, metal fabrication, boiler making and fitting.

Apprentices and trainees receive on-the-job expert mentoring by skilled professionals and teams. They are given time to attend study and have access to other great benefits of working at Council, such as the rewards and recognition program and Fitness Passport.

How to apply

Apprenticeships and traineeships are advertised in local media and on our [Current Vacancies](#) page. Please apply the same way you would for any job and respond to the requirements outlined in the advertisement.

For more information on opportunities to build your career at Central Coast Council, e-mail buildyourcareer@centralcoast.nsw.gov.au

For more information, visit [Trainee and Apprentice Program Fact Sheet](#)

Construction Careers

At the Construction festival event held last term, four panel discussions were held. These discussions were filmed and are available to watch.

The short video available [here](#) is a snapshot of the event. If you subscribe, you can see all of the panel discussions about Careers in Construction or click the following link to watch the panel discussions... [Construction. What Does My Future Look Like? - YouTube](#)

Central Coast Future Choices Expos for Students with Disability

The Hunter and Central Coast Future Choices Expos are annual events presented by Career Links in conjunction with the National Disability Coordination Officer Program and NSW Department of Education Support Teachers (Transition).

These long-running transition Expos are the only events of their kind in the region and, between them, attract over 120 exhibitors. The events connect young people with disability to employment services, employers, education/training providers, disability providers and government services to help them make informed decisions about their future, and the support available in the move to adult life.

Date: Central Coast (Wednesday 30 August 9.00 am - 1.00 pm)

Where: Central Coast - Mingara Recreation Club, Mingara Drive, Tumby Umbi

Cost: Free

Who For: All Year 9,10,11,12 Students

Year 12 students: how to apply through UAC

If you're in Year 12 this year and applying to uni through UAC, here's a step-by-step guide to the application process.
<https://www.uac.edu.au/media-centre/news/year-12-students-how-to-apply-through-uac>

Career mapping: where to after school?

Many students are uncertain about their next steps after Year 12.

But – as Phillip Williamson, Head Teacher Careers for the NSW Government's Educational Pathways Program, writes – it's vital to go easy on yourself, self-reflect and do your research.

Here are Williamson's practical tips for starting your career journey. The most important thing, he advises, is to focus on your direction, not your destination.

<https://www.uac.edu.au/media-centre/news/career-mapping-where-to-after-school>

University of Sydney Articulate PDHPE: Health Equity in Australia Today

3 August

Although Australia provides 'universal' healthcare through the publicly funded Medicare scheme, enormous health disparities exist among and across our population. Clinical services are often unequally available according to the 'postcode lottery' of where you were born. Numerous elements contribute to widely divergent health outcomes including sex, race/ethnicity, socioeconomic and migrant status, educational attainment and occupation, access to housing, the build environment and transport infrastructure, legacies of colonialism, and more. In this seminar,

Katherine Kenny, Kellie Burns, Cristyn Davies and Imogen Harper will discuss how health is socially patterned – not just individually achieved or experienced – in ways that systematically advantage some people over others. In addition to cases exploring some of the causes and experiences of inequality, we also highlight how better health equity might be achieved, especially for young people, in Australia today.

St Andrew's College (University of Sydney) Scholars Program Applications

Closes 20th August

The St Andrew's Scholars program seeks to support our future leaders by awarding up to five scholarships each year. The Scholarships will provide financial support of full fee-relief (currently \$38,048 per annum for first year students) and will be awarded for the length of each student's undergraduate degree, whilst they live in St Andrew's. The Scholars will be exceptional young men and women who will thrive academically, are 'engaged in life' and have the potential to make a significant positive contribution to College and, in the future, the wider community.

University of Sydney Webinar - Nursing at Sydney

2 August

Nursing is one of Australia's fastest-growing employment sectors. Our Bachelor of Nursing (Advanced Studies) and double degrees in nursing will prepare you to apply for registration to practice as a nurse in Australia. Join us to learn more about the program, work placements and what a typical student looks like. This session is delivered by current students studying Nursing.

https://uni-sydney.zoom.us/webinar/register/WN_aiHV6DpcTkOY2jDI93nXew#/registration

University of Sydney Webinar - Life of a marine scientist

9 August

Are you passionate about protecting our marine environments and in leading the global efforts to mitigate climate change? Join this session with A/Prof William Figueira from the School of Life and Environmental Sciences to find out how you can embark on a career in marine science. Learn about a day in the life of a marine biologist conducting pivotal research at the University of Sydney's One Tree Island Research Station.

https://uni-sydney.zoom.us/webinar/register/WN_d-9os1d6Rt67hOhT7e4MrQ#/registration

University of Sydney Chemical Engineering Work Experience

11-13 September

Applications Now Open!

Hosted at the School of Chemical and Biomolecular Engineering, we offer work experience placements for Year 10 students who want to learn more about chemical engineering.

By participating in our interactive activities, students will gain insight into various industries where chemical engineers work and career pathways for chemical engineers. You'll undertake activities in areas that concern our industry partners.

Students will also be introduced to cutting-edge research where chemical engineers apply their ingenuity, innovation, and creativity to find solutions to the 'real-world' problems that are facing our communities.

Conservatorium Musical Theatre Chorus Short Course

31 July

This exciting musical theatre course for students 15-22 years will cover vocal technique, lyrical interpretation, characterization, stage physicality, audition technique and musical theatre ensemble techniques.

Classes will take place weekly and contain a musical theatre ensemble component and a vocal masterclass component, led by industry professional and Conservatorium Music Theatre teacher Rob McDougall. Come and explore the genre of musical theatre in a fun and safe environment. This is the ideal course for students wishing to progress further into their studies of Musical Theatre, or potentially audition for tertiary study in this field. Weekly lessons will begin with basic ensemble, performance and vocal technique, with the second half of the term aimed at preparing students for a performance.

The class will prepare an end of term concert including a presentation the repertoire they have worked on over the term.

Elevate: Boosting women in STEM Scholarship

Applications Close 31 August

The Australian Academy of Technological Sciences & Engineering's Elevate: Boosting Women in STEM program will award up to 500 undergraduate and postgraduate scholarships to women and non-binary people in STEM. The Elevate Program aims to address gender inequities in STEM through fostering more women and non-binary led industry-academia collaborations in applied research and business, growing professional skills of women in STEM and propelling women and non-binary people into leadership.

<https://www.atse.org.au/career-pathways/elevate/>

UTS Engineering and IT Early Entry Program - Edge

Applications Close 4 September

Give your application and career an edge

Your final ATAR score may be one indicator of your ability to become a successful engineer or IT specialist, but we know you are not just a number.

So we're looking beyond the classroom to see what really makes you tick.

Our Early Entry Program – Edge is based on broader criteria than the ATAR alone. Tell us about your passion for engineering or IT and we'll make it count.

Register today for our live webinar to gain an understanding into what the UTS Engineering and IT Early Entry Program is all about and how it can work for you. There'll also be a live Q&A session to get all your questions answered.

<https://www.uts.edu.au/about/faculty-engineering-and-information-technology/programs-and-scholarships/early-entry-program-edge>

UTS Early Entry Program

Closes 4 September

Designed for students who have excelled in Year 11, our Early Entry Program recognises and rewards the hard work that you have put in to your studies, while providing you with some certainty about your next steps after school.

<https://www.uts.edu.au/study/undergraduate/admission-requirements/admissions-schemes/uts-early-entry-program>

Undergraduate Physics Scholarships at Australian National University

Scholarships and grants are provided to assist students with the cost of their studies.

Scholarships vary in value and may be offered to cover some or all of the costs associated with tuition, accommodation, materials, cost of living and other expenses. The Conditions of Award for each scholarship stipulates what the scholarship may be used for.

The complete list of scholarships available to ANU undergraduate students is available on the central ANU website. In addition to the centrally listed scholarships, the following scholarships may specifically be of interest to physics undergraduate students:

Wanda Henry Scholarship in Photonics

Ben Williams student support grant

Love Scholarship

Science Olympiad Scholarship

University of Newcastle Central Coast Open Day 2023

29 July

The University of Newcastle is excited to welcome prospective students to our Central Coast campuses. For anyone considering study, this is an opportunity to have a glimpse into what it's like to be a student at the University of Newcastle.

The four-hour event runs from 10am-2pm, with 1,500 prospective students and community members expected to tour the campuses. Teachers, students and staff from the University will be on hand to give you an overview of the courses offered on campus and campus tours will help you to get a feel for life at the University. Creative Industries Students will showcase their talents with live performances and food and activities will be available.

This will also be the first opportunity for the community to see the new central Coast Clinical School. The Clinical School opened in 2021 and has state-of-the-art facilities for integrated healthcare, medical education, research, and innovation in health courses. Visitors will be able to see the high-tech labs, practice consult rooms and replica medical facilities that are built to allow students to learn in a realistic environment.

La Trobe University - Sydney Open Day

16 August

With a range of undergraduate, postgraduate and pathway courses in Business and Information Technology, La Trobe University Sydney Campus (LTUSC) reflects the same outstanding quality and highly regarded educational experiences as La Trobe University which is ranked in the top 1% of universities globally!

At La Trobe University Sydney Campus (LTUSC), we understand the transition to higher education can be an exciting but daunting time for our students. Feel supported from day one with friendly staff, multicultural learning experiences and access to academic support services. Better yet, we are conveniently located in the heart of Sydney and offer Undergraduate, Postgraduate and Pathway courses in Business and Information Technology. Close to part-time work and internship opportunities, enjoy a short walk to major transport hubs, shopping centres, café districts and Sydney's world-renowned icons.

We are a tight-knit community ready to support students at every stage of their academic journey. We invite you to visit our campus, meet the LTUSC team and learn more about why La Trobe is the right choice!

Uni Survival Guide

Nearly all your needs and all the answers to your questions in one place.

<https://cef.org.au/university-survival-guide/>

Student Life in the Tertiary World

Choosing what to study and where to study is really just the tip of the iceberg. Once you've finally made the big decision and turned up for your first day, student life is everything that follows.

Your time as a student is a whole lot more than just showing up to class and displaying a diploma on your wall.

Rather, it's about the complete picture and what you get out of your experience, including minor ups and downs and the general challenges that come with taking time out to complete post-compulsory education.

This section covers everything you need to know about life as a student but probably haven't even thought about yet, from student services and how to use them to helpful hints for when you begin job hunting.

<https://www.gooduniversitiesguide.com.au/study-information/student-life>

Bond University Medical Program Information Session for 2024 Intake

10 August

The Bond University Medical Program offers students opportunities to bring to life their ambitions to become outstanding practitioners, thinkers, and leaders, well-equipped to deliver evidence-based, patient-centred health care that meets the needs of a diverse community.

If you missed out on our last webinar in November or would like a refresher, we invite you to join the Dean of Medicine who will provide an overview of the Medical Program at Bond University. Get the answers to all your questions during this information and interactive chat session. It's your opportunity to ask the important questions, explore your options and discover if Bond University is the right fit for you.

Your information session topics of discussion:

- Entry requirements and tuition fees
- Program structure and subjects
- How to apply and the admissions process
- Upcoming key dates
- Pathways into the program

Sydney Trains Mechanical Apprentices 2024 Intake

Closes 6 August

With this opportunity you'll combine paid work with structured training, allowing you to learn a trade of your choice while working towards a nationally accredited qualification. No previous experience is required – you'll learn everything you need to know throughout our four-year programs. You'll also be part of a friendly and supportive team that delivers safe, timely and efficient rail services to communities across NSW.

We're looking for people to join our apprenticeships in the following trade disciplines:

- Rail Maintainers Mechanical - You will be trained to diagnose mechanical faults and complete repairs and carry out routine scheduled maintenance of our trains.
- Signal Fitter – You will be trained to carry out the installation, maintenance, and repair of mechanical signalling equipment.
- Plant Mechanic – You will be trained to carry out routine maintenance and repair our mobile plant. You will obtain high risk work licences to operate this machinery.

<https://jobs.transport.nsw.gov.au/job/Auburn-Sydney-Trains-Mechanical-Apprentices-2024-Intake-NSW-2144/941842510/>

Sydney Trains Electrical Apprentices 2024 Intake

Applications Close 6th August

With this opportunity you'll combine paid work with structured training, allowing you to learn a trade of your choice while working towards a nationally accredited qualification. No previous experience is required – you'll learn everything you need to know throughout our four-year programs. You'll also be part of a friendly and supportive team that delivers safe, timely and efficient rail services to communities across NSW.

We're looking for people to join our apprenticeships in the following trade disciplines:

- Signal Electrical – you will be trained to carry out regular routine maintenance and repairs, reconstruction, and installation of signals asset. You will assist our Signalling Teams to deliver a range of construction, engineering, and maintenance services.
- Telecommunications (Operational Technology) – You will be trained to carry out work with complex communications, control systems and emerging technologies
- Substations – You will be trained to install and maintain electrical equipment in and around our high voltage rail substations.
- Rail Traction (Overhead Power Lines) – You will be trained to carry out routine maintenance and construction of the electrical 1500Vdc and high and low voltage aerial lines. You need to feel at home at heights and driving large vehicles and plant.
- Rail Maintainers Electrical – You will be trained to diagnose electrical faults and complete repairs and carry out routine scheduled maintenance of our trains.
- HV Cable Joints – You will be trained to carry out maintenance, emergency repair and construction of our electrical cable network to ensure a safe and reliable network for our customers.

2024 Apprentice Program - Apprentice Gas Technician

We are seeking 8 x motivated Apprentice Gas Technicians to undertake a Certificate III in Gas Supply Industry Operations over a three-year program which will enable you to obtain industry skills and knowledge under the supervision of qualified and experienced professionals, while also attending our registered training provider to complete your certification.

The location for these apprenticeships will be based at Greystanes however your days will mostly be spent out in the field working across Sydney metro. For the first two years, you will be buddied up with a mentor before being given your own Tool of Trade vehicle (petrol and tolls are paid for by the company).

During the program, you will be a valued member of our team and will participate in workplace and worksite rotations, experiencing a variety of work environments within the gas supply industry which will enhance your skills and career development opportunities. This is a fantastic alternative to a plumbing apprenticeship.

National Art School Open Day

2 September

The National Art School is Australia's leading fine art school, with an unrivalled studio-based teaching model that has delivered a rich tradition of artistic practice and generations of world-renowned alumni for the past 100 years.

Leading into the 21st Century, NAS provides a progressive and holistic art education, and invites the public to join us on Open Day to share our creative community.

Everyone is welcome at Open Day, from those considering art as a career to anyone simply curious about what happens behind the school's historic sandstone walls.

There will still be plenty of opportunity to see what life is like for students at NAS, with demonstrations in the studios, the chance to drop in on classes, and to enjoy shows in our exhibition spaces.

Studying Abroad Can Change the Way You See The World

Study Abroad Programs give you the opportunity to experience the world as your classroom. Rather than picking things up from books and the Internet, navigating a new landscape may open your eyes to culture, history, a new language or your heritage. Studying Abroad opens the door to personal growth and discovery too. As you learn to say 'hello' in a foreign language, make friends, eat exciting new foods, it is bound to boost your confidence, teach you self-reliance and stretch the parameters of your comfort zone.

Ag Career Start

Applications Open 14 August

If you're 17-25, this unique gap-year program provides you with a paid job, training and development, not to mention the opportunity to build your networks within the agriculture industry. Applicants can indicate which farm type they'd prefer from a wide variety, and also where in Australia they would ideally like to go. A matching process is undertaken to ensure participants are assigned to the type of farms that match their interests and skills.

- Full-time paid farm job with a passionate host farmer
- A \$4,500 Training and Engagement Bursary to upskill yourself
- Funding to travel for industry events
- A dedicated support team

Want a maths career? Watch our STEM + X webinar recording

Watch this webinar recording to explore how you can combine a maths degree with your 'X', which is your passion, another area or a big goal

In this webinar recording you'll meet a data scientist who works at a big bank, an AI researcher that's using machine learning to solve problems and a maths professor passionate about conservation.

In this video...

You'll learn about everything you can do by combining maths with your passion!

Maths is typically seen as all about snoozy spreadsheets. But the truth is, maths is a really broad area, and people who do maths degrees can work in government, in business, with our oceans – even in space! Often without a spreadsheet in sight.

Explore how you can combine a maths degree with your passion, another field or a world changing goal (we call this your "X") by using Careers with STEM's winning formula – STEM + X (where STEM = science, technology, engineering and maths, and X is up to you!).

A day in the life of an analyst at the RBA

Jacob Harris once dreamed of becoming a doctor, until he discovered economics.

After finishing school, Jacob enrolled in a Bachelor of Economics majoring in economics and physics at the University of Sydney. While he was studying, he found out about the graduate program offered by the RBA – a two-year program where economists straight out of university work across several departments, applying the knowledge learnt in the classroom in a real-world policy environment. He thought it looked like an awesome opportunity, but wasn't sure he'd get in.

Earth Conservation x Space Exploration

15 August

What's more important: Earth's conservation or space exploration?

It's a tough question, and in this interactive event, you choose whether you explore the physics of life and energy on Earth or in space, or both!

If exploring the Earth, you can learn about renewable energy and the physics that connects us to the cosmos, or, if space is more your thing, you can learn about cool (literally) space technology and imagine a future where the stars are within your reach. There will also be telescopes and a planetarium for those wanting to immerse themselves deeper into the Universe.

Earthworms - Secondary School Competition for Soil Week

Submissions due 15 September

Soil Week Australia is running its very successful Healthy Soil Competition again in 2023. We have two categories for students.

The world under our feet is invisible, yet it is a world teeming with billions of microorganisms working together to keep our plants and animals, landscapes, and water supplies clean and healthy. Worms are wonderful and play a key role in healthy soils and a healthy environment. They also are part of the carbon cycle that can draw down carbon from the atmosphere and store the carbon in the soil. Tell us a great story about how wonderful worms are and win some great prizes.

Entries can be in any digital format. This might mean producing a video, making a magazine, drawing a picture, recording a speech, writing a play, painting a mural, designing a video game, writing a book review, or painting a mural. You just need to be able to send it to us, (or a link to it) in an email.

Careers In Shipping

The shipping industry plays a vital role in international trade and in the economic progress of most countries. Because of its international involvement and operations it is different in many respects from other industries. Because of this it offers interesting and diverse career opportunities.

Shipping operates in a keenly competitive international market and as the growth in international trade increases and ships to carry the trade are in greater demand, career prospects also improve.

Employment opportunities arise for bright young people with or without their higher school certificate or university degrees. On-the-job training is available for everyone to learn about the shipping industry. Positions also become available for graduates or those who already have professional qualifications. The shipping industry attracts a wide range of disciplines including accounting, IT, customer service, marketing, logistics and international business. In more specialised sectors of the industry, ship chartering and broking skills are often in demand.

Dr Karl and Friends: Innovation and Beyond

17 August

There's a buzz this National Science Week as Dr Karl Kruszelnicki and friends join forces, live on stage at Sydney Town Hall.

Take a ride with Dr Karl through the past 100 years of the greatest scientific discoveries and innovations that changed our lives forever.

Today's thinkers will do the same, but how? Dr Karl will talk to four future-focused researchers poised to blast our futures into the stratosphere.

- Professor Anita Ho-Baillie is it possible to double the efficiency of a solar panel on your roof from 20% to 40%?
- Professor Emma Johnston whose marine ecology research covers everything from bushfires and invasive species, to marine pollution (macro and micro plastics).
- Associate Professor Michael Bowen whose neuroscience research aims to treat opioid addiction and help tackle the devastating opioid crisis.
- Professor Geordie Williamson whose research is harnessing the power of AI to attack problems in mathematics, shedding light along the way on what current AI can and cannot do.

Applications Close Soon for National Youth Science Forum

Applications Close 31 July

Do you love science, technology, engineering, or mathematics? Or do you have the drive to find solutions to problems and fix things?

Are you curious and constantly asking Why? How? Why not?

Do you see yourself working in a science or technology-related field and would like to know more about STEM-related study and career paths?

If you answer yes to any of these questions, apply to attend the NYSF Year 12 Program.

<https://www.nysf.edu.au/what-we-do/how-to-apply/>

Applications Now Open for Future Teacher Scholarships

Applications Close 25 August

Great news, applications for the NSW Department of Education's Future Teacher Scholarship Programs are now open. If you are a Year 12 student, university student or career changer, you could be supported while you study to become a teacher.

Successful applicants receive a range of benefits and incentives, including financial support whilst studying and a permanent teaching position in a NSW public school on successful completion of studies. There are a variety of scholarship programs available. Find out which program is right for you and apply below.

<https://education.nsw.gov.au/teach-nsw/get-paid-to-study>
